Fig. 1 is a detailed cross-sectional view of a mechanical assembly, likely a pump or valve. The assembly features a central shaft (92) passing through a housing (81). Key components include a top cap (95) with a central screw (93) and a seal (94). Below the cap is a valve assembly (91) with a valve seat (87) and a valve core (88). The shaft is supported by bearings (89, 90) and a seal (96). The shaft is connected to a piston (85) which is part of a cylinder (84). The piston is connected to a crankshaft (100) via a connecting rod (101). The crankshaft is supported by bearings (102, 103) and a seal (104). The assembly is shown in a cross-sectional view with various parts labeled with numbers.
